Grave Decorating Rules

In order to continue to maintain our cemetery efficiently and curb increasing maintenance expenses we ask your cooperation with the following rules:

- ❖ Traditional flat marker lot – *Live annual* flowers may be planted in a flowerbed on the grave side of the marker adjoining the marker. This flowerbed will be the *same* size as the marker.
- ❖ Upright monument lot – *Live annual* flowers may be planted adjoining the monument on the grave side of the monument. Owners of graves on both sides of the monument may plant flowerbeds on both sides of the monument.
- ❖ No decorative rock is allowed.
- ❖ Fresh cut flowers are allowed in approved containers. No glass containers are allowed.
- ❖ The use of any flag or flag holder on a lot is permitted only for the Memorial Day holiday.
- ❖ Plastic and other artificial decorations are prohibited between March 15 and November 15.
- ❖ Christmas decorations are permitted from November 15 to February 15.
- ❖ No breakable decorations are allowed.
- ❖ The Association is not liable for the destruction or removal of decorations. The cemetery personnel will attempt to save decorations placed in the wintertime while clearing a path for a funeral. This is seldom successful because of the frozen ground and snow.
- ❖ The Association reserves the right to remove all decorations, trees, shrubs, or plants when they do not conform to the Rules and Regulations, or which become unsightly, overgrown, dangerous or diseased on the lot on which they are situated or to any other lot, path, or roadway. Failure to give proper care will constitute an order to remove same.
- ❖ Any unkempt flowerbed will be mowed over.

DECORATIONS NOT IN ACCORDANCE WITH THESE RULES WILL BE REMOVED!

- ❖ Markers, monuments, burial vaults, and in-ground, columbarium and mausoleum vases can be purchased at the cemetery office.
- ❖ Engraving of the final date on markers and monuments can also be arranged through our office.
